FIRE HOSE BOX (CABINET)

The fire hose boxes are made with hot compressing process in powerful hydraulic pressing machine.
The new production process makes the products very strong and fine surface, better than traditional handmade GRP boxes, while total cost is similar.

Sizes:
The fire hose boxes are available in various sizes.
650 x 560 x 190MM, wall thickness 5MM, intended for 30 Meter length fire hoses.
590 x 470 x 170MM, wall thickness 3MM, intended for 20 Meter length fire hoses.
560 x 540 x 150MM, wall thickness 5MM, intended for 20 Meter length fire hoses.

Material:
Main body: Fiber Glass SMC (Sheet Molding Compounds), made with Hot Mould Pressing Process in Hydraulic Pressing Machines.
Hardware: Stainless steel or carbon steel.

Inside hardware:
Option 1: Fire hose reels made with stainless steel or coated carbon steel.
Option 2: Fire hose hanging shaft, stainless steel made.
Other optional items: Fire nozzle bracket, Spanner bracket.
